**Agenda Item Four: Question and Answers from the floor**

| Headline Topic Phone Masts |   |
|----------------------------|---|
| <b>Question 1</b>          | 2 Phone masts were recently refused by officers. The prime minister has just declared that masts no longer need planning permission. Will the council offer an article 4 direction, so masts will still require planning permission?  |
| <b>Response</b>            | <p>Cllr Hodgins: My understanding is the new rules are around 5G and that new masts still require planning permission. Where masts already exist, taller 5G masts can be replaced. Government still need to do a technical consultation on this. The Council are looking into whether an article 4 direction would work.</p> <p>Cllr Marcel: This relates to 5G, which we need, but not at the expense of infrastructure. Grey area if it is a Huawei mast due to government concerns.</p> <p>Cllr Cambridge: I did put in a letter against these masts as residents asked me to.</p> |

| <b>Headline Topic Upper Richmond Road and Sheen Lane Crossing</b> |  |
| <b>Question 2</b>   | Upper Richmond Road and Sheen Lane crossing, a car crashed into a traffic light recently. This is a dangerous area. I know it is a TfL road, but they aren't listening to me. What are the Council doing about this?   |
| <b>Response</b>   | Cllr Cambridge: I haven't got an answer back from TfL yet, I will let you know when I do. We are waiting on TfL's change to this area.<br>Cllr Marcel: We have been lobbying TfL for 8 years about this dangerous junction. TfL's plans for the area are to improve it. Originally plans were due to develop this area May 2021, not too sure if there will be a delay due to Covid. No response from TfL at the moment.<br>Cllr Joyce: Cllrs met with TfL last February, option of a yellow box junction is not on the cards. |
| <b>Supplementary question</b>                                     | Could Sheen Lane become a pedestrianised area?   |
| <b>Response</b>   | Cllr Joyce: Where would the dis-placed traffic go? It would impact the already congested Upper Richmond Road. Good idea, but not practical.  |
| <b>ACTION</b>   |  |
| <b>Headline Topic Traffic Strategy</b>                            |  |
| <b>Question 3</b>   | How do residents influence the traffic strategy and how people move around our borough? Is there a focus on a 'green recovery'?  |
| <b>Response</b>   | Cllr Hodgins: Please speak to your Ward Cllrs about what you would like to see regarding how people move around our borough. There is a lead member and officers at the council are working on various strategies such as air quality, a greener borough and transport movement.<br>Cllr Joyce: It would be good to have an independent traffic review across the whole borough.   |
| <b>Supplementary question</b>                                     |  |

| <b>Headline Topic: Register of Empty Shops</b>                    |  |
| <b>Question 4</b>   | Is there any opportunity for a register of empty shops that local businesses could use as pop up shops? (East Sheen)   |
| <b>Response</b>   | Cllr Bridge-Wescott: We are doing Ward walks with Cllr Baker, we can discuss this.<br>Cllr Marcel: This is a brilliant idea, especially currently. We need to look to see if landlords require special permission in order to do this.   |
| <b>ACTION</b>   |  |
| <b>Headline Topic: Milestone Green TfL Plans</b>                  |  |
| <b>Question 5</b>   | What is the best way to get the plans from TfL for Milestone Green? We need to have a proper consultation around this.   |
| <b>Response</b>   | Cllr Joyce: We assume the project manager for this is currently on furlough. There will need to be a large area consultation around this. Plans are still subject to the traffic engineer's approval.  |
| <b>Supplementary Question</b>                                     |  |

|  |   |
|--|---|
| <b>Headline Topic: Hammersmith Bridge and Stag Brewery Development</b> |   |
| <b>Question 6</b>  | Hammersmith Bridge and Stag Brewery Development – can we build a jetty to remove the rubble from the site? The roads cannot cope with the extra lorries needed for this development.  |
| <b>Response</b>  | Cllr Curran: This was raised during the planning application – concerns from the London Port Authority as the river is very shallow at this point and barges are very deep.<br>Cllr Avon: It is very frustrating that we can't join up all planning applications in the area – Barnes Hospital, Stag Brewery, Hammersmith Bridge etc will all have a detrimental affect on travel and transport in our area. We need to look at this further. |
| <b>Supplementary question</b>  |   |
| <b>ACTION</b>  |   |
| <b>Headline Topic: Richmond Park's Closure to Traffic</b>              |   |
| <b>Question 8</b>  | What is being done about Richmond Park's closure to traffic   |
| <b>Response</b>  | Cllr Joyce: The Royal Parks could do better at communicating with us. We are currently in limbo regarding what their plans are for vehicles.  |
