

Home Park Terrace, Kingston Bridge

The mobile was situated in the parking bay of Home Park Terrace about 2 metres from the roadside. This location was monitored between June to August 1999. The graphs indicate that the limit values for NO₂ and CO were not exceeded. However the PM₁₀ limit of 50ug/m³ was exceeded on 1 day (31st July).

Nitrogen Dioxide (NO₂)
Hourly Mean
Limit=105ppb

PM₁₀ Running 24 Hour Mean
Limit=50ug/m³

Carbon Monoxide (CO)
Running 8 Hour Mean
Limit=10ppm
